

Exercise and get rewarded.

We listened.

It's a UnitedHealthcare goal to help people live healthier lives. Making exercise a part of your daily or weekly routine may be one of the most important steps you take toward being the healthiest "you." To better help you¹ on your way, we've created the Sweat Equity physical fitness reimbursement program.

The program offers a variety of exercises to choose from and the option to combine your fitness facility visits with your physical fitness classes to help you reach the required 50 "workouts" in a six-month period.

Reimbursement for qualifying fitness expenses.

Eligible UnitedHealthcare members² can get reimbursed up to \$200 in a six-month period. That's right; we will send you a reimbursement for each six-month period that you are in the program, provided you meet the required goals and submit a completed reimbursement form.

You can apply for reimbursement under the program as long as you:

- Are an active member of an eligible UnitedHealthcare plan.
- Have gone to the gym and/or exercise classes 50 times in six months.

Your reimbursement period begins on the date of your first fitness facility visit or class and ends six months later, after you have completed 50 visits, 50 classes, or a mix of visits and classes that add up to 50. You can start a new reimbursement period one day after your other reimbursement period ends. If you complete 50 qualifying workouts in less than six-months, please do not submit your reimbursement request early. We cannot accept reimbursement requests before six-months have passed.

To get started, choose a gym or sign up for fitness classes.

Decide on a cardio (aerobic) workout that you'll enjoy and find a facility with the equipment or classes that promote cardiovascular wellness.³ To get reimbursed, the facility and classes you choose must be open to the general public. Remember to check with your doctor before you start exercising or increasing your activity level.

So many ways to help you get fit – and get rewarded.
